

FDA Compliance Training

Is your Training up to date?

If not B&R is pleased to offer these Options

Course Overview

B&R Compliance Associates introduces a series of Tele-Web Training Programs on various segments of the FDA compliance medical gas requirements in a web / teleconference format. B&R is recognized as one of the leading authorities on compliance in the medical gas industry, and now our highly rated training programs are available in a more flexible, convenient, and cost effective format. B&R will be offering the Tele-Web Program both as an annual subscription fee, or on a per site/session use fee.

Who Should Attend

The FDA requires that each employee receive training in Current Good Manufacturing Practices. These Tele-Web Training Programs will present information that is critical for every medical gas manufacturer to know, and are applicable to anyone responsible for filling, testing, or handling of medical gases.

Course Presenter

Ron Ball – Vice President & Managing Director-B&R Compliance Associates

Ron has over 35 years of experience in pharmaceutical manufacturing, including an extensive career in Medical Gas Operations working closely with Gases and Welding distributors to identify and implement FDA Compliance solutions. His background includes quality systems development for operating procedures, training, analytical methods, validation, and auditing. The gases industry and FDA recognize Ron as one of the leading experts on compliance issues today. A number of Ron's training programs have received national recognition for excellence, and he has been a featured speaker on regulatory issues at numerous industry-sponsored events.
